

AMENDMENTS TO THE CLAIMS

1. (Original) An interlabial pad having a size capable of being easily inserted between female labia, comprising:
 - a pair of absorbing sheet bodies for absorbing body fluid, wherein each of the absorbing sheet bodies is unbonded at right and left side edges in respect of a longitudinal direction while bonded at both ends in the longitudinal direction.
2. (Original) An interlabial pad as claimed in claim 1, wherein said pair of absorbing sheet bodies comprising:
 - a main sheet body comprising:
 - a first permeable surface side sheet facing a body side;
 - a first permeable or impermeable back side sheet facing an opposite side to the body side; and
 - a first absorber for absorbing body fluid;
 - wherein the first permeable surface side sheet and the first back side sheet are bonded each other to enclose the first absorber; and
 - a sub-sheet body comprising:
 - a second permeable surface side sheet facing a body side;
 - a second permeable or impermeable back side sheet facing a garment side; and
 - a second absorber for absorbing body fluid;
 - wherein the second permeable surface side sheet and the second back side sheet are bonded each other to enclose the second absorber.
3. (Currently amended) An interlabial pad as claimed in claim 1 or 2, wherein the unbonded areas of said main sheet body and said sub-sheet

body in the right and left side edges are line-symmetrical with respect to a center line in the longitudinal direction of the interlabial pad.

4. (Currently amended) An interlabial pad as claimed in claim 1 ~~or 2~~, wherein said unbonded areas, in each of the right and left side edges in respect of the longitudinal direction of the interlabial pad, are formed in a range of 2/5 to 4/5 of a whole portion of each side edge.
5. (Currently amended) An interlabial pad as claimed in claim 1 ~~or 2~~, wherein the length of said main sheet body in the lateral direction is equal to that of said sub-sheet body in the lateral direction or shorter than that of said sub-sheet body in the lateral direction.
6. (Currently amended) An interlabial pad as claimed in claim 1 ~~or 2~~, wherein a stiffness of said main sheet body in the lateral direction is smaller than that of said sub-sheet body.
7. (Original) An interlabial pad as claimed in claim 6, wherein the stiffness of said main sheet body in the lateral direction is not more than 1.5 mN.
8. (Currently amended) An interlabial pad as claimed in claim 1 ~~or 2~~, wherein said first absorber inside said main sheet body has a line for inducing bending in the center of the lateral directions.
9. (Currently amended) An interlabial pad as claimed in claim 1 ~~or 2~~, wherein said sub-sheet body includes a protruded area, which is protruded towards the body side.
10. (Currently amended) An interlabial pad as claimed in claim 1 ~~or 2~~, wherein said sub-sheet body further includes a mini sheet piece for forming a finger insertion opening between said second back side sheet

and the mini sheet piece on the garment side of the second back face side sheet of said sub-sheet body.

11. (Currently amended) An interlabial pad according to claim 1 ~~or 2~~, wherein the interlabial pad is used together with a sanitary napkin.
12. (Currently amended) An interlabial pad according to claim 1 ~~or 2~~, wherein said interlabial pad is a pad for an incontinence of urine.
13. (Currently amended) An interlabial pad according to claim 1 ~~or 2~~, wherein said interlabial pad is a pad for absorbing vaginal discharge.
14. (Currently amended) A wrapping body comprising:
an interlabial pad as claimed in claim 1-~~or 2~~; and
a wrapping container for individually wrapping the interlabial pad;
wherein the interlabial pad is enclosed in the wrapping container.
15. (Original) A wrapping body comprising:
an interlabial pad as claimed in claim 10; and
a wrapping container for individually wrapping the interlabial pad,
wherein said interlabial pad is enclosed in said wrapping container
such that the interlabial pad is orthogonal to the wrapping container.
16. (New) A wrapping body comprising:
an interlabial pad as claimed in claim 2; and
a wrapping container for individually wrapping the interlabial pad;
wherein the interlabial pad is enclosed in the wrapping container.
